# MONISH HARWANI

## SOFTWARE DEVELOPOER AND ENGINEEER

Mumbai | monishharwani143@gmail.com | +91-9823751351

## PROFESSIONAL EXPERIENCE

**Full Stack Developer, SEED Global Education          June 2024 - Present**

Assist Platform Development **(B2B Client Portal)**
- Developed interactive client dashboards with lead download options for scholarships and events.
- Built two-way workflows enabling clients to view, shortlist, and assign awards to students directly through the platform.
- Designed visual statistical reports (pie charts) highlighting lead distribution and global diversity.
- Secured all report access and downloads with Authentication and logging System.

Admin Platform Enhancements **(Internal Portal)**
- Implemented full CRUD operations for event management, eliminating manual Excel-based processes.
- Built lead qualification workflows to ensure only vetted leads are shared with clients.
- Developed automated report publishing with integrated email notifications, reducing manual effort by 90%.
- Enabled dynamic creation and publishing of scholarship landing pages through the platform.
- Automated scholarship data distribution post-deadlines, streamlining previously manual tasks.

Events & Scholarships Platform Enhancements **(B2C Portal)**
- Developed dynamic landing pages for events and scholarships, enabling direct user engagement and lead capture.
- Integrated user tracking across landing pages, leading to the capture of over 200K+ user leads.

## PROJECTS

**Blogosphere**
- Developed a Laravel-based app for managing blogs with roles (Admin, Author, Viewer).
- Features include categories, tags, comments, and search functionality.
- Built with **Laravel, MySQL, HTML, CSS, and Bootstrap.**
- Integrated user authentication and authorization for secure access.

**CLICKMART**
- Created an eCommerce platform with **Laravel** and a **RESTful API** for product transactions.
- Ensured scalable and efficient user experience for buying and selling.

**Purity Plants**
- Developed a **React/Node.js** e-commerce platform for plant purchases, featuring user login, shopping cart, and advanced filtering.
- Implemented Redux for seamless state management and UI experience.
- Integrated real-time inventory updates to reflect product availability.

## EDUCATION

| | | |
|---|---|---|
| **B.E. in Computer Science** | Thadomal Shahani Engineering College, Bandra | **2020-2024** |
| **H.S.C. Science** | C.H.M College, Ulhasnagar | **2018-2020** |

## TECHNICAL SKILLS

**Programming & Frameworks:** PHP, ReactJS, NodeJS, Laravel, Express, Java, JavaScript
**Databases & Tools:** MySQL, MongoDB, Git, SQL
**Concepts:** Object-Oriented Programming (OOP), Data Structures
**Problem Solving:**
- 5 Stars on HackerRank ,4 Stars in SQL on HackerRank
- 150+ days on LeetCode,
